TUESDAY, March 17-6 P. M. id market has been dull and heavy to-day and the fluctuations prior to the adjournment of the board were from 139% to 139, following which re was a decline to 138%, the latest quotation curent on the street having been 138% a 138%. Coin was superabundant supply and from five and a half seven per cent was paid for carrying. The gross learings amounted to \$49,575,600, the gold balances \$1,584,735, and the currency balances to \$2,217,860. he speculative feeling in the room is very tame, and the prospective disbursement of the May increst on the public debt is already being used as an argument against an advance in the premium in the absence of anything more important. The glut of gold in the Bank of England and the Bank of France entinues undiminished, and on the 26th of February the former held £21,349,789 and the latter £45,082,000, making a total of £66,431,780, which sufficiently accounts for the plethors of loanable funds at rates of

nterest varying from one and a half to two per cent. The money market became extremely stringent this afternoon, owing in part to arti-licial causes designed to depress government securities, and borrowers in some instances aid seven per cent in gold on United States bonds, while applications for loans were made as late as alf-past three o'clock to the private bankers, showing that bank accounts were made up with dimculty. During the forenoon the supply appeared equal to transactions below this rate. As a matter of course there is a very limited market for commercial paper, and only strictly prime passes at 7½ a 9 per cent. The effect of this condition of menetary affirs on the Stock Exchange was depressing, and late in the afternoon has touched for a long time past. The Eric excitement continues unabated, but the fluctuations in it 58%, with the closing transactions at a fraction above 7. One of the suits relating to this stock came up journed by him until Tuesday next without argument, and apart from this nothing new has transpired concerning the litigation between the rival parties. The feeling of the street with regard to the stock is very bearish, and outside holders are naturally distrustful of it in the face of the discouraging statements of the company as to its condition. At the same time public sympathy in the contest is against the Vanderbili party, because the people at large are opposed to such a huge mo-hopoly as the control of the Eric, New York Central, the Hudson River and the Harlem by one man would ssarily confer upon him, with the power to raise he rates of fare and freight to suit his own purposes. Mr. Vanderbilt had not already control of the three last mentioned railways the objections to his securing possession of the Erie would not exist, for his nagement has won for him a prestige which has had much to do with advancing the stocks of the sempanies he represents to their present high point. They are, however, now, on the decline, and money nders exact wider margins on them than they thought of doing before the Eric contest began. It is difficult to borrow any but small amounts on Eric, even with a twenty per cent margin, and some of the banks have reused to lend on it at all, the litigation in which the empany is involved and the threatened issue of sore new stock having unsettled confidence in it. At the same time the entire railway speculation for a rise is demoralized, and the chief anxiety of holders of stocks is to realize. Under these circumtances the general public will do well to keep out of The Chicago and Rock Island cases came up for

rgument in the Supreme Court to-day, and as mo-Mons have been made for a continuation of the injunctions, for a dissolution of them, for attachment for contempt and for the appointment of a receiver, it is probable that the hearing will occupy several Government securities were very dull, but steady,

mtil the afternoon, when the extreme monetary stringency compelled some holders to sell for cash, which forced a decline in prices, particularly for 105%, but afterwards 105% was bid for them, and there was a fractional improvement in the bids for he gold bearing stocks. In view of the scarcity of ney in Wall street, the policy of the Treasury in reasing its balance in this city more than six milwithin a short time is unfavorably commented epon, and the question arises why does it not disburse a portion of its surplus currency in the purchase of seven-thirty notes instead of deferring such until they command higher prices, as they undoubtedly will, after money becomes more abundant. But for this stringency all classes of United States bonds would advance; and when the pressure is removed the quotations were as follows:-Registered, 1881, 111% a 111%; coupon, 1881, 111% a 111%; 5-20's, registered, 1862, 107 a 107%; 5-20's, coupon, 1862, registered, 1862, 107 a 107%; 5-20's, coupon, 1904, 110% a 110%; do., 1864, 107% a 108; do., 1865, 108% a 308%; do., 1865, January and July, 106% a 107; do., 1867, 107 a 107%; 10-40's, registered, 100% a 101; 10-40's, coupon, 100% a 101; June 7.30's, 105% a 106; May compounds, 1864, 118 a 100; August do., 117 a 118; September do., 116% a

At the commencement of business the stock market was weak, and Erie sold down to 65%, and New York Central to 12034. At the early session of the open board Erie was largely dealt in (sales 16,800 shares), and the price advanced from 66 to 67 on the call, while New York Central, which was next in point of activity, fluctuated between 122 and 120%. At the first regular board the market was steady at a further slight advance and moderately active, but the decline since Monday morning was quite marked. New York Central closed 4% lower an at the same time yesterday, Erie 3%, Reading K, Michigan Southern K, Cleveland and Pittsburg 2K, Cleveland and Toledo 2, Rock Island 1K, North-Wabash 2. Milwankee and St. Paul &. Oblo and Mississippi %, Pacific Mail %, Atlantic Mail %, Western Telegraph %. North Carolina sixes de-Missouri sixes %. Government were dull and a fraction lower in some clined 36. instances. At the open board at one o'clock the market experienced further improvement, and New York Central sold at 122% a 122% and Erie at 68% a 88%. At the second regular board, Erie having previously sold up to 68%, the market was steady and moderately active. New York Central closed % higher than at the first board, Erie 1, Michigan Southern %, Cleveland and Toledo 1, Rock Island %, Northwestern proterred %, Alton and Terre Haute 1, Milwaukee and St. Paul %, Milwaukee and St. Paul proferred & Paul %, Milwaukee and St. Paul preferred %, Pacific Mail 1%, Western Union Tele-graph %, and Reading was % lower, Fort Wayne %, Toledo and Wabash %, Atlantic Mail 1%. Government securities were inactive. At the open board at half-past three the market was heavy and Eric sold at 67 a 67 %; New York Central, 121 % a 121 %; Hudson River, 135%; Reading, 92% a 92%; Toledo and Wabash, 48%; Canton Company, 46; Milwaukee and St. Paul, 51%; Milwaukee and St. Paul preferred, 67 a 67%; Fort Wayne, 100% a 101; Michigan Southern, 88 a 88½; Ohlo and Mississippi, 29½ a 29½; Cleveland and Pittsburg, 89½ a 90; Cleve-land and Toledo, 103½; Northwestern preferred, 73. Afterwards Erie advanced to 68 and then reacted to 67, while New York Central declined to 119%, under a sharp pressure to sell. This weakened the tone of the whole market, and it closed un-settled at six o'clock at the following quotations:— New York Central, 119% a 119%; Erie, 67 a 67%; Reading, 92% a 92%; Michigan Southern, 87% a 87%; Cleveland and Pittsburg, 89% a 89%; Cleveland and Toledo, 102% a 103; Rock Island, 92% a 92%; Northwestern, 62 a 65; Northwestern preferred, 72% a 72%; Pacific Mail, 109% a 110; Fort Wayne 100% a
